## Welcome to Bauma

If you are reading this you are most likely in Munich for the world's biggest equipment show. In the three years since Bauma 2004 much has changed, the most significant being the fortune of the manufacturers. Crane and Access producers are having one of the strongest periods in recent times, with many crane companies quoting deliveries out as far as 2010.

Such conditions will start to have a more lasting impact on the business if they continue, throwing up opportunities for importers at a far more rapid pace than might otherwise have been the case. An indication of that is the number of crane manufacturers from China exhibiting this year, some of whom are already doing good business in Europe. American producers such as Link Belt and Pettibone, absent from the market for many years are also back, spurred on by the low dollar and strong demand.

Such times create interesting developments and possibilities and there are few better places to get a feel for these than at a major trade show and Bauma is the mother of them all. Take time to visit companies you do not know, there are many first time exhibitors this year. This guide, our third Vertikal Bauma, will hopefully make that task easier. We have listed every exhibitor associated with cranes, powered access and telehandlers pointing out where to find them and what to look for. In addition if you are looking for a bar, a restaurant or just how to get about, it is all here in a clear uncluttered format. If you need any help, advice or simply want to chat, come and visit our Bavarian log cabin on stand F702.

*Leigh W Sparrow*

## Willkommen auf der bauma 2007

Wenn Sie diese Zeilen lesen, sind Sie höchstwahrscheinlich schon vor Ort in München auf der weltweit größten Messe für Baumaschinen. In den drei Jahren seit der letzten bauma hat sich unglaublich viel getan, an vorderster Stelle hat sich die Lage der Hersteller enorm gebessert. Kran- und Bühnenhersteller erleben eine der stärksten Phasen der letzten Zeit. Viele Hersteller sprechen von Lieferzeiten, die bis 2010 reichen...

Solch komfortable Bedingungen könnten einen dauerhaften Erfolg mit sich bringen, wenn sie noch eine Weile fortauern. Importfirmen wittern ihre Chance; schneller als ursprünglich gedacht, ergreifen sie die Gelegenheit beim Schopf. Eine ganze Reihe chinesischer Kranhersteller ist zum Beispiel in München am Start. Dabei sind einige davon schon gut im Geschäft. Auch Hersteller aus den USA wie Link-Belt oder Pettibone bei den Teleskopladern sind auf den „alten“ Kontinent zurückgekehrt, beflügelt vom schwachen Dollar.

Solche Zeiten ermöglichen interessante Entwicklungen und Gelegenheiten - um dies hautnah mitzubekommen, dürfte es kaum einen besseren Ort geben als eine der großen Messen schlechthin wie die bauma. Nehmen Sie sich die Zeit, einigen neuen Firmen einen Besuch abzustatten. Mit Hilfe dieses Messeführers, unserem dritten mittlerweile, sollte dies leichter von der Hand gehen. Sie finden im Folgenden so gut wie alle Aussteller aus dem Bereich der Hubarbeitsbühnen, Krane und Teleskoplader. Wir schlagen Ihnen für jeden Maschinentyp einen Rundgang vor. Ausgangspunkt ist jeweils unser Stand. Wer eine Bar, ein Restaurant oder andere München-Infos sucht, wird im hinteren Teil fündig. Kommen Sie am Stand F702/6 des Vertikal Verlags vorbei, wenn Sie Hilfe benötigen - oder einfach eine Kaffeepause einlegen wollen.

Wear a full body harness with a short lanyard in boom type platforms

# Hubarbeitsbühnen

# IPAF geschulte Bediener

# sicheres und effektives Arbeiten in der Höhe

IPAF trains more than 50 000 operators per year worldwide in the safe and productive use of modern platforms - its PAL Card is recognised everywhere as proof of high quality training.

International safety legislation increasingly demands proper training and your business relies on the productivity of your operators. So insist on IPAF-training for operators to get every job at height done effectively and in complete safety.

# Now Genie is within your REACH

When you need to go up in the World,  
Genie has the machine for you.

Genie machines are built to provide an  
unmatched level of reliability and safety  
when you're working at height.

And their superior performance means that  
they're strong enough to manage even the  
toughest jobs.

With a range that includes the highly  
manoeuvrable personnel and material lifts  
to the rugged telehandlers and articulating  
and telescoping booms with lifting heights  
of up to 43 metres there's sure to be one  
that suits you.

# UNIC

## CRANES EUROPE

**UNIC** Cranes Europe is launching the world's biggest mini crane at Bauma. With six tonnes lifting capacity at three metres and a hook height of 19.5 metres, the **A706CL** is now the highest capacity crane in the **UNIC** range. Discover incredible power and reach in the most confined of working environments. With an overall width from 600mm, **UNIC** mini cranes are small enough to get in there, and big enough to get the job done.

**A094CR** 0.995t x 1.5m (boom length 5.49m)   **A095CR** 0.995t x 3.5m (boom length 8.65m)   **A295CR** 2.9t x 1.4m (boom length 8.65m)   **A376CL** 2.9t x 2.5m (boom length 14.61m)   **A506CL** 3.0t x 3.4m (boom length 15.71m)

For more information about UNIC, please phone 01844 202 071, visit the UNIC Cranes website [www.unic-cranes.co.uk](http://www.unic-cranes.co.uk) or alternatively, email the UNIC Cranes sales office: [sales@unic-cranes.co.uk](mailto:sales@unic-cranes.co.uk)
