

# THE BOOM IS BACK.

The Snorkel you knew is now a brand new, 45-year-old company. Refreshed, retooled and recommitted to providing the rental industry with a full line of top-quality scissors and booms supported unconditionally.

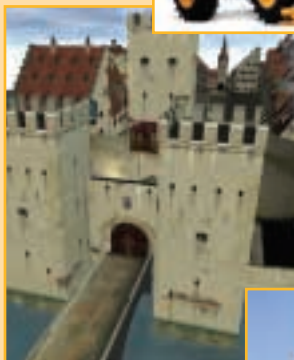

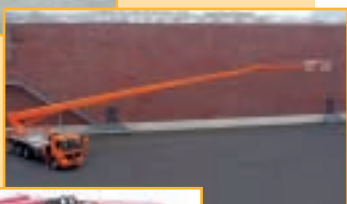

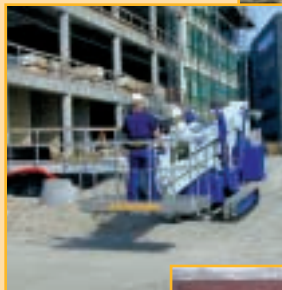

By building and delivering great products, on time and at a fair price, today's Snorkel aims to earn not only your business, but also your trust.

At Snorkel, things are indeed looking up. And we're out to prove that's good news for the aerial industry.
