# Mark your diary! AGM and Professional Development Seminar

This dual event running alongside the Safety and Health Expo at the NEC represents a unique opportunity for PASMA members to hear about the association's achievements over the last year and, afterwards, to catch up on the latest issues affecting towers and work at height in general:

**Date:** Thursday, 24 May 2007  
**Venue:** Hilton Birmingham Metropole, NEC  
**Room:** The Terrace  
**AGM:** 9.30 a.m.

The Seminar will follow immediately after the AGM at 10.30 a.m. with registration from 10.00 a.m. Current PASMA chairman, Brian Houston, speaking of the planned events said: "There have never been so many reasons to attend a PASMA AGM and, whilst the seminar will be of interest to anyone involved in tower use, it is especially relevant for PASMA instructors and I would urge them to make a point of attending."

The programme and speakers are:

1030	Keynote speech	Paul Gallacher, PASMA chairman elect
1040	Falls from height - are we making a difference?	Justine Lee, Health & Safety Executive
1120	Product Standard Certification - separating the wheat from the chaff	Colin Bywater, BSI Product Testing
1200	Lunch	
1230	PASMA Instructor Training - how PASMA is raising the bar	Mick Aston, lead instructor
1300	The Audit Process - a positive perspective on a negative perception	Paul deChastelain, Southern regional auditor
1330	Manufacturers' Viewpoint - if we didn't make it you couldn't break it	Paul Pritchard, chairman manufacturers' Technical Committee
1400	Training Centre Software - training administration made easy	David Frost, Soter Solutions
1430	Closing remarks - where are we now and where are we going?	Andy Weaver, Training committee chairman Elect

There are three optional delegate packages available which include overnight accommodation, coach transfers to / from the NEC and admission to the Access Industry Forum Conference on Wednesday, 23 May. For more details of these packages and to book online visit our website [www.pasma.co.uk](http://www.pasma.co.uk).

## Tower Power

Routine repairs using a typical tower. Picture by courtesy of Youngman Group.

[www.pasma.co.uk](http://www.pasma.co.uk)

The association has invested heavily in its website which is now the natural focus and authority on all matters relating to mobile access towers. It has knowledge and information to impart at a level to suit every visitor. Contents include guidance on best practice, tower training and frequently asked questions [FAQ].  
[www.pasma.co.uk](http://www.pasma.co.uk)

## Ground rules

Recently reviewed and updated, the latest PASMA Code of Practice contains a wealth of information relating to the safe use of mobile access towers. Produced in co-operation with HSE, it is the definitive guide to best practice for users of prefabricated towers manufactured in aluminium alloy or fibreglass to BS EN 1004 : 2004.
