## The Paint Dull and Faded?

### There is a fast solution that can save you £££'s

When a machines paint work becomes faded and dull, it can take hundreds of pounds off of its resale value and if it is in your fleet it can dent your image and reputation. Current options do not work or are very costly:-

- Cutting polish simply does not last and damages the paint surface
- A respray can cost thousands plus loss of earnings.

### There is now an alternative!

Dakota shine treatment takes less than 24 hours and will restore both the colour and the original deep gloss finish and will last as long as the original paint. The four steps are quick, simple and require minimum skills.

**DEALERS AND  
APPLICATION CONTRACTORS  
WANTED!**

1. Pressure wash
2. Clean with Dakota Prep
3. Apply any touch up required
4. Spray with clear Dakota Shine

Leave to harden overnight and your machine is ready to go back to work with a new lease of life! Dakota shine also revives the rubber, vinyl and plastic parts so no need to Mask.
