The independent magazine of the crane industry

HOIST

## Discover the latest innovations

The 5th annual Crane Safety & Management conference is returning to London on 22nd - 23rd June 2006, at Jury's, Great Russell Street. The two-day conference provides an opportunity for delegates to come together to hear experts, share ideas, network, and take home answers to critical questions.

- Maximise your profits with an effective safety plan
- Improve productivity through the implementation of a safe work culture
- Reduce the risk of litigation by staying on the right side of the regulators
- Boost your competitive advantage by implementing successful international best practice
- Gain financially from effective asset management

## 3 for 2:

**Book two delegates and a third attends FREE!**  
CPA and CEA members benefit from a reduced fee

Speakers confirmed include: Hans-Dieter Willim, general manager design department, **Liebherr**, Germany; Ian Simpson, Specialist Inspector – **Mechanical, Health and Safety Executive**, UK; Tsutomu Hashimoto, member of **Japan National Committee for ISO/TC111**; Secretary of the **Japan Society of Industrial Machinery Manufacturers**, and R&D General Manager, **KITO Corporation**; Don Nelson, chairman of the **Technical High Angle Rope Rescue Programme** steering committee and manager of **Industry and Labour Services – Construction for WorkSafeBC**, British Columbia.

## Learn from industry leaders

The morning plenary sessions will cover all the major issues facing the lifting industry - but that is not all. The packed programme will also include:

- Panel sessions on innovations and future developments in tower, mobile, and factory cranes
- Workshops will focus on issues that are key to your business success

## The Paint Dull and Faded ?

### There is a fast solution that can save you **£££'s**

When a machines paint work becomes faded and dull, it can take hundreds of pounds off of its resale value and if it is in your fleet it can dent your image and reputation. Current options do not work or are very costly:-

- Cutting polish simply does not last and damages the paint surface
- A respray can cost thousands plus loss of earnings.

### There is now an alternative!

Dakota shine treatment takes less than **24 hours** and will restore both the colour and the original deep gloss finish and will last as long as the original paint. The four steps are quick, simple and require minimum skills.

**DEALERS AND  
APPLICATION CONTRACTORS  
WANTED!**

1. Pressure wash
2. Clean with Dakota Prep
3. Apply any touch up required
4. Spray with clear Dakota Shine

Leave to harden overnight and your machine is ready to go back to work with a new lease of life! Dakota shine also revives the rubber, vinyl and plastic parts so no need to Mask.

## K LIFT

# Crane Hire and Lifting Services Operations Manager

K-Lift is a nationwide service provider with depots throughout the UK and we are aiming to be the number one specialist in mobile self erecting cranes and contract lifting.

As an expanding company K-Lift are looking to recruit an Operations Manager with a proven track record and knowledge of mobile self erecting tower cranes operating from our newly opened Enfield depot.

The successful candidate will report to the Operations Directors and will be responsible for the day to day running of a large fleet of mobile self erecting and telescopic cranes.

The candidate must be proficient in Microsoft office and AutoCad systems and possess strong man management qualities.

An excellent remuneration package will be offered to the successful candidate.

Please email your CV along with your current salary details and notice period required to:
