Specialist local shows expand

A packed show at Platformers Days

September saw two successful exhibitions for Cranes, access and telehandler buyers and users - Platformers Days in Hohenroda Germany and JDL in Beaune, France. Cranes & Access staff were on hand to report and meet up with local readers. Just prior to us going to press, GIS was held in Piacenza, Italy and was by far the best show to date. The following are some of the highlights from Platformers and JDL in terms of new products and announcements etc. We will follow up with GIS in the next issue. More photographs from all three events can be found on Vertikal.net by simply putting Platformers, JDL or GIS in the news search box.

The Beaune location appeared a popular choice for JDL with plenty of exhibitors and visitors
