Cranes & Access reaches over six times as many UK/Irish buyers of aerial lifts and lifting equipment than any other crane or access magazine, along with an exceptionally strong international readership, with over 15,000 lifting related professionals around the world reading either the printed or online editions of the magazine.

Given the wide global readership you will be surprised at how cost effective it can be as a medium to promote your products or services.

FOR USERS & BUYERS OF LIFTING EQUIPMENT

CAN YOU WRITE? DO YOU WANT TO WRITE?

The Vertikal Press is looking to add to its editorial team and has openings for editorial staff/journalists both experienced and at trainee level, part time or full time.

We would be interested to hear from freelance writers with experience of the equipment industry, preferably with some lifting/work at height experience, as well as those looking for something more permanent.

We are also looking for trainees either seeking work experience and training in the publishing world, or those with some experience who wish to progress their careers. Openings are available for work on our online and print publications as well as in our events management department. Location is flexible although European based candidates will have an advantage, however we would also welcome applications from further afield.

Our English language magazine Cranes & Access is read in more than 182 countries around the world, while Kran & Bühne is Germany's leading lifting magazine, with strong additional readership in Switzerland and Austria. Vertikal.net is the global leader in accurate timely news for the lifting/work at height industry. Updated daily it attracts more than 75,000 unique visitors a month, from 194 countries.

LIVE LINE DEFENDER™

Are you working safely at height?

LIVE LINE DEFENDERS

Be aware of overhead live line dangers and hazards.

This innovative safety product offers audible and visual warning, good sensitivity, greater interference rejection, a wide input range and sensitive range settings. This device features a signal strength meter to give the operator an indication of proximity to a detected overhead power line. Designed as secondary warning to help to prevent vehicles and machinery from coming into contact with high-voltage overhead lines.

Having trouble with Grove or Krupp EKS units?

The EKS Repair Centre can provide rapid solutions to your problem.

We specialise in stocking and repairing all types of **Grove** and **Krupp** EKS units.

We can offer you four options to have your crane working quickly and safely again:

1. You send us the EKS unit (via courier/secure delivery preferably insured), We will repair the unit for you within seven working days and send it back to you.
2. We can immediately send you a refurbished unit - if is available from stock - you can install it as get back to work with the crane. You can decide whether to send your old EKS back to us or not. If you do we will inspect it and refund you the value of the old unit.
3. We can send you a brand new unit, if they are still available and in stock, you can then choose whether to send the old EKS back to us or not, if you do we will inspect it and refund you the value of the old unit.
4. We can also offer you new or used E-proms (programmed) for all models of **Krupp** and **Grove** cranes.
