in Manhattan

Visit WOLFF at

March, 10-15th 2020  
Festival Ground Booth No. F5832

WOLFF works worldwide – as for example the WOLFF 355 B at 242 West 53rd Street New York in Manhattan's Theater District. WOLFF Luffing Jib Cranes are ideal for efficient high-rise lifting solutions in a tight urban spaces. Make cranesational WOLFFKRAN technology and service work for you. Join the leader of the pack: [wolffkran.com](http://wolffkran.com)

Der Leitwolf. *The leader of the pack.*

# DINGLI

Exceed · New Height

## Extraordinary Height Larger SWL Ultra-light Design

### Subversive Design

Sophisticated European R&D·Intelligently manufactured by Dingli in a new state of the art facility·Global Patent Protection

### Subversive Innovation

Innovative technologies such as dedicated axles, overall component downsize, lower counterweight for lower center of gravity and lighter machines, modular design for ease of maintenance and interchangeability of parts.

### Subversive Performance(Compared with the same model in the industry)

The maximum working height heights have been increased by more than 2m to 30m on the telescopic Boom Lifts is 30m and 28m the Articulating Boom Lifts. Both models can be loaded into a standard container.

Maximum SWL increased by more than 30% to 454kg on telescopic booms and 300Kg on articulating Boom Lifts.

Maximum Horizontal Reach is increased by more than 1m.

Maximum gradeability is 50%, an increase of more than 20%.

The weight of the whole machine will also be 1 ton lighter.

### Subversive Maintenance(Low maintenance costs)

With a family-style modular design, 95% of the parts and more than 80% of the structural components are common across the range.

More convenient maintenance and lower cost of components storage.

Simple to maintain with integrated component down design.

With dedicated axles, the failure rate is lower.

### Telescopic Boom Lifts

**BT24RT**(24m) **BT26RT**(26m) **BT28RT**(28m) **BT30RT**(30m)

### Articulating Boom Lifts

**BA24RT**(24m) **BA28RT**(28m)

## TC600

Capacity: 60 ton  
Boom Length: 131 ft.  
Max Tip Height: 194 ft.

COME VISIT US AT

FESTIVAL GROUNDS:  
F6258

Load line rollers,  
extend life of  
wire rope

Newly designed 4-section  
boom for optimal  
stiffness and strength to  
weight ratios

Remote mounted Kenway  
all-in-one air conditioning  
& heating unit for ultimate  
comfort and noise  
reduction

Full view 20° tilted cab  
with standard heating and  
A/C for maximum operator  
comfort

10,000 lbs.  
Removable  
counterweight  
system

\*Optional lattice jib  
with box pull out  
section

ROC Solid - Radio  
Remote controller  
for outrigger, winch  
and FBS setup

Continuous rotation  
plus 360° area of  
operation with optional  
front bumper stabilizer

Increased outrigger cylinder size for  
added durability and ground  
penetration on uneven terrain

Newly designed Wedge  
(trapezoidal) style subframe  
for increased torsional  
stiffness

Newly designed  
fold down  
telescopic ladder
