## Looking for a custom-built people carrier?

When you want a vehicle that can't be bought off the shelf, we provide the service you really need.

From design, build, financing, ongoing servicing and top-level support - Hitachi Capital can provide a solution that considers your budget, the tasks your vehicles must perform and the environments they'll be working in.

But just as important as supplying the right vehicle is keeping it working. If a specialist vehicle breaks down, a replacement isn't often readily available. We fully understand the impact

downtime has on your business, so our support infrastructure is geared to meeting the most demanding service and support requirements.

If you're looking for something that fits your specific needs, call Hitachi Capital Commercial Vehicle Services on

# Are your Machines looking Old and Tired?

# The Paint Dull and Faded?

**There is a fast solution that can save you £££'s**

When a machines paint work becomes faded and dull, it can take hundreds of pounds off of its resale value and if it is in your fleet it can dent your image and reputation.

Current options do not work or are very costly:-

- Cutting polish simply does not last and damages the paint surface
- A respray can cost thousands plus loss of earnings.

**There is now an alternative!**

Dakota shine treatment takes less than **24 hours** and will restore both the colour and the original deep gloss finish and will last as long as the original paint. The four steps are quick, simple and require minimum skills.

1. Pressure wash
2. Clean with Dakota Prep
3. Apply any touch up required
4. Spray with clear Dakota Shine

Leave to harden overnight and your machine is ready to go back to work with a new lease of life! Dakota shine also revives the rubber, vinyl and plastic parts so no need to Mask.
