## COMMENT

# Surf's up!

What use is the internet to you? We think that it is the best way for you to keep up to date with news from manufacturers, law-makers and generally what's going on in the industry. But, you can waste a huge amount of time surfing the net. Our own web site, [www.Vertikal.net](http://www.Vertikal.net), is establishing itself as THE site for news about Europe's lifting industries.

But, do you have the time to make regular visits to [Vertikal.net](http://www.Vertikal.net)? Probably not. We have a solution to this problem. You tell us what subjects interest you and we will send you a short e-mail when we have something of interest. You could, for example, tell us that you are only interested in truck mounted access platforms and mobile cranes. We will then send you a short e-mail whenever we have a relevant story for you. In the e-mail will be the headline and a link. Clicking on the link will take you to the full article. We will not bombard you with e-mails, two or three a month at the most, and, for the time being, there is no charge for the service.

To register for our e-mail Alerts service go to [Vertikal.net](http://www.Vertikal.net) (you can put "www" before the address if you want to but it is not necessary) and click on the "Newsletter" link on the left of the page. Choose which subjects interest you, give us your e-mail address and that's it. If you prefer, you can fill in the form on page 26 of this issue.

What else is on [Vertikal.net](http://www.Vertikal.net)? Back issues of this magazine with a powerful search function (so you can see what we have written about you or your equipment), reference sections, an events section with links to all relevant exhibitions, and a list of useful industry links. You can also send us news about your company for inclusion in the magazine and on the web site.

Your views on our new on-line magazine would be very welcome so please, visit [Vertikal.net](http://www.Vertikal.net) and then let me know what you think.

Best regards  
Tim Whiteman.
